Creating this Vision

In November 2020, we started the journey to develop a Banyule Community Vision for 2041. A vision that captures the community's aspirations and priorities for our city over the next 20 years.

To develop the Vision, we introduced the Banyule 2041 – Shaping Our Future project. The project was all about listening and collaborating with the community, understanding local issues and priorities to create a long-term vision for Banyule and inform the Council Plan and Long-Term Financial Plan.

Stage 1

Understanding community aspirations and focus for the future

The conversations started in November 2020 as we invited our community to participate in the Banyule 2041 – Shaping Our Future Project. The first stage asked the community to imagine Banyule in 2041 and share what areas Council should focus on.

The contributions outlined what the community value in Banyule, what they aspire for the future, and areas of focus for Council to achieve that future while remaining financially sustainable.

Throughout the engagement period, Council worked to inform as many people as possible about the project, encouraged participation and provided background information about Banyule to help give well informed feedback.

Stage 2

Banyule Community Working Group

For the second stage of engagement, Council called upon everyday community members to join the Banyule 2041 Community Working Group (CWG), The CWG was made up of 55 people from a representative sample of the Banyule community, in a sense a 'mini-Banyule'.

At its core, community deliberation was about empowering communities to reach a collective agreement on the preferred future state. After many interesting and in-depth discussions the CWG developed a co-authored Community Vision statement, identified themes to focus on for the next 20 years and made recommendations to help deliver the Council Plan and Long-Term Financial Plan.

What a remarkable journey we have been on as our community embraced the idea of developing a Community Vision for Banyule 2041.

They brought energy, enthusiasm and expertise to create an inspired vision for the future of our city.

They embodied the amazing spirit of our community, and it was heartening to see how caring they were for one another and the place we call Banyule.

What they produced is a vision that is aspirational, ambitious and achievable.

A vision that strives to build a better future for all. A future that starts with action today and ensures in 20 years' time our next generation will be in a better place.

We are truly grateful to more than 1300 people who contributed along the way and put us on our path towards Banyule 2041. We look forward to continuing this journey with you all to make this vision a reality.

We look forward to 2041.
