

Banyule's Community Infrastructure Plan

A 10-year plan to support community to thrive

We are improving Banyule's liveability through the creation of 20-minute neighbourhoods. As part of this, we're aiming for community buildings and services to be twenty minutes from shopping precincts.

What is community infrastructure?

Community buildings that deliver services and opportunities for social connection

- Community halls
- Multi-purpose rooms
- Libraries
- Sports pavilions
- Youth centres
- Kindergartens
- Maternal & Child Health centres
- Childcare centres

Why is community infrastructure important?

Access to services

Social connections

Learning opportunities

Health and wellbeing

Our draft 10-year Community Infrastructure Plan proposes to:

- Maximise the use of existing buildings that are underutilised
- Create multi-purpose spaces in existing buildings
- Identify partnership, renovation or co-location opportunities with clusters of community buildings
- Create lease and licence agreements that support multiple uses of community buildings
- Promote access to Council and non-Council community spaces
- Upgrade buildings for children, youth and families
