LITTLE FREE LIBRARY

Relocation of 'Little Free Library', a key feature of the existing space. New location provides an accessible space off main path to sit and read while having a pleasant view of the dry creek bed and play space. A 'commuter's corner.'

DRY CREEK BED

Dry Creek bed with concrete base to ensure better water flow through site within flood zone.

TRAIN CUBBY

Addition of train themed play cubby to accompany existing relocated train unit. Encourages imaginative play among children.

NEST SWING

Addition of nest swing to encourage interactive play.

PICNIC SHELTER

Improved social amenities with greater shade coverage provided by 2 new shelters over retained picnic tables.

TIMBER LOG STEPPERS/ INFORMAL SEATS

Vertical timber logs included in combination play unit, acting as steppers from one platform to the next. Included in 'reading corner' as informal seating options for those wishing to sit and observe the play around them or read a book from the 'Little Library'.

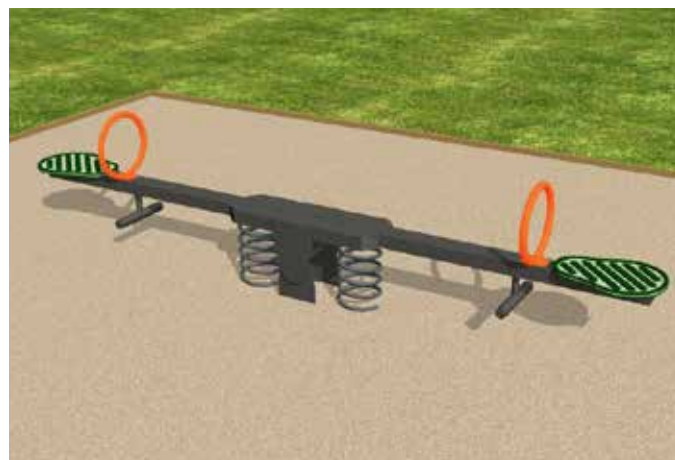

NEW PLAY EQUIPMENT

New combination play unit with junior and senior play elements including junior slide, double senior slide, various climbers, inclined net bridge, balance disc walk, wave bridge and tic tac toe wall.

CARVED ROCK

Inclusion of feature carved rock in dry creek bed. Sculptural element that will encourage imagination and diversity in play.

NEW SEE SAW

Addition of new see saw on accessible soft fall rubber

NEW SPINNER

Addition of new semi accessible spinner on soft fall rubber.

TRAIN PLAY UNIT

Relocation of existing junior train play unit to accessible soft fall rubber with train track line markings and train cubby to encourage imaginative and integrated play.

NEW SWING SET

New swing set including sling seat and toddler harness (and nest swing as pictured top right).
